The University of Tasmania has recently re-confirmed its position as one of Australia’s best universities in a wide range of disciplines, as ranked by the internationally recognised QS World University Rankings for 2015.

The international ratings agency evaluate more than 3000 universities for academic reputation, employer reputation and research impact.
We help you become who you want to be

Our University has always had a distinct focus on understanding what drives human achievement – enquiring and learning how human interaction and behaviour helps drive the world forward. That focus remains today and is a cornerstone of our teaching and research endeavours.

Our wide range of courses gives you the chance to pursue a particular field of study in depth, with a particular career in mind. Or explore a variety of personal interests to add breadth to your knowledge. You can even discover interests as you go.

Many Arts degrees are pursuits of passion, which means our students are often the most energised and motivated on campus.

Arts has no compulsory core units, a wide range of possible majors and minors and a broad choice of individual elective studies. It is also possible to study cross-discipline, to find appropriate exchanges with international partners or take up a combined (double) degree. Because of their structure, these degrees are an excellent way to transition from school to university to career. And they are some of the most popular first degrees for school leavers and other learners.

There is also a chance to push the boundaries of knowledge.

We have a program of innovative research that responds to local need, and addresses globally significant problems. You will be taught by staff who are leaders in their particular fields of research.

The research is conducted in the School of Humanities and the School of Social Sciences as well as in specialist centres; the Asia Institute Tasmania, the Institute for the Study of Social Change and the Tasmanian Institute of Law Enforcement Studies.

An Arts degree is an excellent way to transition from school to university to career.
Who Studies Arts, Humanities and Social Sciences?

People with wide interests and very personal passions. Arts and Social Sciences students are often thinkers, problem-solvers and doers – people who don’t shy away from a good discussion or chance to argue a case.

These courses will encourage you to sink your teeth into study and research, get involved in class discussions and interact with academic staff. On top of assessment tasks, you’ll find opportunities for international exchange, volunteering and internships – experiences that help you graduate with the type of skills and personal qualities employers are looking for.

These include ‘skills’ such as effective communication and decision-making as well as provable abilities in problem solving, research and investigation, critical thinking and time management.

Career opportunities with Arts, Humanities and Social Sciences

Graduates at the University of Tasmania can provide a wide range of experiences and broad workplace skills. They also let you choose specialist career studies. A few possibilities include:

− Administration
− Advertising
− Armed Forces
− Community work
− Counselling
− Diplomacy
− Heritage and museology
− Interpreting
− Journalism
− Management
− Marketing
− New media
− Paralegal

− Police Force
− Politics
− Psychology
− Publishing
− Radio and television
− Research
− The Arts
− Teaching
− Tourism

Most students select one major (eight units), one minor (four units), degree electives (four introductory units) and student electives, a second major (eight units).

Depending on your chosen course, you may be able to combine learning on and off campus, or study part-time or online. Flexible study options can make it easy to fit study around your work and life commitments.

Double or Combined degrees

Double degrees are pretty much how they sound. A double degree merges the core requirements of two different degrees. This lets you graduate with the equivalent of two degrees faster than it would take to do two separate degrees. Double degrees can give you greater depth of knowledge in more than one area. This gives you more career options.

If you’re academically capable and want to challenge yourself, a double degree is an ideal way to get the most from your time at university.

A Bachelor of Arts degree can be combined with bachelor degrees in Business, Computing, Economics, Laws, or Science.

Honours

Honours can help you gain deeper knowledge in your specialist area. An additional Honours year can mean you start your career higher up the ladder and progress in your career faster.

It can also lead to postgraduate study and a career in scientific research or academia.

Choose specialist studies to focus your career.
Alternative entry pathway

If you don’t have the prerequisites for direct entry into an Arts degree, an alternative entry pathway helps you get the qualifications you need to get into the course you want.

One choice is a Bachelor of General Studies – Foundation Year Pathway. Designed for mature age students returning to study, VET graduates or students with a low ATAR, the course gives you achievement at introductory level in at least two degree units.

Alternatively, the University Preparation Program (UPP) offers mature age students, or those who did not complete year 11 and 12, the skills critical for success at university across a broad range of subjects.

An AQF-recognised Diploma, or an Advanced Diploma in an Arts or Social Sciences related discipline from an Australian TAFE or other Registered Training Organisation, is another option. It may also mean you’re eligible for advanced standing in a degree.

If you have already started a degree at our University, or at an Australian or overseas tertiary institution, you may be eligible for advanced standing in a similar degree.

For more information on Double Degrees, Honours and Pathways, please see page 15.
Your study experience

The learning experience at our University goes beyond lectures and tutorials.

Guest lecturers give you a chance to learn from working professionals from all areas of business, commerce and government. Corporate internships and mentoring opportunities (in both the public and private Industry) can add greater depth to your studies.

Study Abroad

In-country programs
A range of programs can be completed as part of your studies. Students can develop their language skills in a native-speaking environment, or undertake cultural or media research (Japan and Indonesia), take part in Buddhist Studies in India, or undertake professional placement opportunities by volunteering in non-government organisations across Asia.

Study Abroad Scholarships
The University actively encourages our students to extend their learning opportunities by undertaking international study exchange. To facilitate this, we offer a range of scholarships and financial assistance.

Industry or Community Internship Placements
An Industry Internship Placement combines academic components, assessed by us, with workplace experience for one or two days a week. This is a compulsory part of some study programs and a recommended part of many others.

High-achieving and academically capable students in the second or third year of their studies are offered internships. These give you an invaluable opportunity to put into practice the principles, theory and skills you’ve acquired. To round out the real world experience, you will go through a competitive application, interview and selection process. This ensures our partner businesses get the best candidate.

Internships with a community or not-for-profit organisation can deepen and broaden your skills, and provide a link between your studies and your community.

A Community, Industry or Parliamentary Internship can be one of the most exciting, valuable and rewarding parts of your university study.

It can also provide a competitive advantage when it comes time to finding employment.

Many students who undertake the internship program go onto further employment with their placement provider.

Additional learning resources

We want to help you get the most from your time with us.

You’ll be taught by subject matter experts. These are people who are passionate about what they teach. They’ll encourage you to share questions and perspectives, inside lectures and outside the classroom.

Our administration team are available to discuss unit choices, degree planning, credit and advanced standing.

Dedicated Student Advisers are also available for advice, support and assistance with academic studies or things affecting your personal wellbeing or circumstances.

We also provide online tutorials to help with your research assignments and develop your skills faster.

An Arts or Social Science degree is typically a three-year, full-time course. We offer part-time courses, face-to-face, online and distance study options. There is a range of units available over the summer, spring and winter breaks.

Scholarships

Each year, the University offers more than 900 awards, across all academic areas. The awards are based on merit and equity and reward excellence and improve access for new or continuing students. Application details and selection criteria for each award are clearly noted for each award on our website and within the online application.

See: utas.edu.au/scholarships-bursaries
Arts, Humanities and Social Sciences at the University of Tasmania covers a huge range of fascinating and exciting fields.

If you want to gain greater knowledge in your chosen field, or broaden your career prospects with different skills, a double degree – in Arts, Social Sciences or a different field completely – is the ideal solution.

The Bachelor of Arts is your ultimate springboard into a wide range of careers and further study options. If you are interested in a career in areas such as cultural heritage, journalism, tourism or politics this is the degree for you. It’s also perfect if you’re after a broad foundation in university and life skills including critical thinking, reasoning and creativity, setting you up as an ideal job candidate.

Our Arts degree is flexible allowing you to build a course of study to suit you in a diverse range of study areas. Here, at the University of Tasmania, we offer 26 different majors ranging from languages to criminology to history and ancient civilisations. Most students choose to take two majors, specialisations, giving them a strong knowledge of two different areas.

These programs are offered through the School of Humanities and the School of Social Sciences. Our creative arts courses are available through the Tasmanian College of the Arts.

**Majors**

**Aboriginal Studies**

Discover various aspects of Indigenous history, culture and experience in Australia. You’ll explore community development and justice issues as well as a range of art, health and heritage matters.

**Ancient Civilisations**

The classic period holds endless fascination and modern parallels, from the Greeks and Romans to the Middle Ages and Celts. This course looks at language, art, architecture, society and conflict.

**Ancient Greek**

Learn the language that laid down the foundations of western drama and philosophy. Read and study ancient texts and literature, unadapted prose and poetry, including Homer, Plato and more.

**Art Theory**

Explore the role and significance of the visual arts in society. Art and Design Theory considers artistic periods and movements, as well as regional and cultural influences.

**Asian Studies**

Consider Asia through its people, cultures, religions or ideas. Study it through an historical or contemporary perspective. Look at it through economic or cultural terms. Or focus on particular aspects of China, India, Indonesia or Japan.

**Behavioural Studies**

This introduction to psychology includes research methods, intelligence, social psychology and cross-cultural psychology. It can include studying emotional development and behaviours from childhood to adolescence to adulthood.

**Chinese**

This opportunity to study spoken and written Chinese (simplified characters) includes grammar, speaking, listening, reading and writing. It also touches on Chinese history and society.

*General Entry Requirements are briefly outlined in the ‘How to apply’ section. Visit utas.edu.au/admissions for further details.*
Criminology
Investigate the intersection of law and society. The course considers different perspectives from social policies, terrorism and policing, offender rights, victim impacts and juvenile justice.

Economics
Economics can be undertaken as minor course of study within a Bachelor of Social Science. If you wish to take Economics as a major, you will need to take it as part of a Business degree.

English
This wide ranging and fascinating course looks beyond Shakespeare, classical literature and poetry to consider Australian literature, contemporary fiction, screen and genre.

French
This course has been developed to help you develop a sound command of the four language skills of listening, reading, speaking and writing.

Gender Studies
Gender issues touch many aspects of ethics and society. This course looks at gender in different areas of the world, at different historical periods, and considers what it means to be a human being.

Geography
This study of the geophysical world looks at the extraordinary variety of landscapes, environments and species on our planet. It include study into climate, ecology, agriculture and conservation.

German
This course has been developed to help you develop a sound command of the four language skills of listening, reading, speaking and writing. It also looks at aspects of German history and culture.

History
Learn the skills required of all historians. Discover the historical context of places, people, religion and empires. A vast range of elective units includes Australian, European and world histories.

Indonesian
This course has been developed to help you develop a sound command of the four language skills of listening, reading, speaking and writing. It also looks at aspects of Indonesian history and culture.

International Relations
Understanding the process, substance, and changing nature of international relations is vital in a globalised world. The course also considers contemporary political concepts, debates and practices.

Japanese
This course has been developed to help you develop a sound command of the four language skills of listening, reading, speaking and writing. It also looks at aspects of Japanese history and culture.

Journalism, Media and Communications
The course covers the essentials of news writing, researching and interviewing and looks at the opportunities presented by new practices, technologies, platforms and policies in modern media.

Latin
This course will allow those with no previous knowledge of Latin to read passages of adapted and unadapted poetry and prose. It can also include some historical and cultural background.

Legal Studies
A Legal Studies major gives you the chance to get a feel for Law by looking at various legal systems, diverse areas of the Law and looks at how different legal problems and issues can be approached.

Music History
This major takes a broad approach to the history of music. It focuses on major composers, pivotal periods and the evolution of various musical genres and styles.

Philosophy
Philosophy can give you valuable personal and workplace skills. The course looks at contemporary social and technological developments through the prism of different philosophers and philosophies.

Politics and Policy
Explore national and international politics and examine the dimensions of power in different contexts including international relations, public policy, war, freedom, democracy, and human rights.

Psychology
Learn about major areas in psychology and basic techniques for psychological investigations and gain insight into research methodologies, individual social behaviours, group and intergroup relations.

Sociology
Explore social identities, differences, structures and societal change. The course teaches skills in research and prepares you for a career in research, government, non-profit organisations and other human-focused fields.

Tourism
This major touches on tourism as an industry as well as factors (like history and culture) that affect or involve destinations or types of tourism. A corporate internship is part of the study program.

Professional recognition
An accredited three-year sequence is available in the Bachelor of Arts. This comprises a Psychology major plus a minor in Behavioural Science. This program is accredited by the Australian Psychology Accreditation Council.
Economics
Economics can be undertaken as minor course of study within a Bachelor of Social Science. If you wish to take Economics as a major, you will need to take it as part of a Business degree. Please see our Business brochure for more information or visit utas.edu.au/courses

Geography and Environmental Studies
This study of the geophysical world looks at the extraordinary variety of landscapes, environments and species on our planet. It include study into climate, ecology, agriculture and conservation.

It can be studied as a major within the Bachelor of Arts.

Journalism, Media and Communications
Journalism, Media and Communications can be undertaken as a major or minor course of study within a Bachelor of Arts. (Bachelor of Arts – Journalism, Media and Communications). It can also be taken as a second major within a Bachelor of Social Science (Bachelor of Social Science – Politics and Policy).

Please see our Journalism, Media and Communications brochure for more information or visit utas.edu.au/courses

Languages
The benefits of studying a language go far beyond speaking another language.

Language learning has been shown to positively impact your broader academic performance, engage your brain and improve your employment chances in international and national businesses. If you want to major in a language, you need to study a Bachelor of Arts. Language options at our University include:
- Ancient Greek
- Chinese
- French
- German
- Indonesian
- Japanese
- Latin.

See Bachelor of Arts on page 8.

Politics and Policy

If you’re fascinated by the way people work, a Social Science or Arts degree gives you a number of ways to explore this rewarding field. These include:
– Behavioural Studies
– Criminology
– Gender Studies
– International Relations
– Journalism, Media and Communications
– Legal Studies
– Politics and Policy
– Psychology
– Sociology

Diploma of International Studies

Learn more about the world around you. The Diploma of International Studies helps you to understand a wide variety disciplines with an international focus. You can choose to study this as a stand-alone qualification or in conjunction with another degree from any faculty or area of study at the University of Tasmania.

Areas of study
– Culture
– Economics
– Languages and literature
– Politics and international relations
– Race and ethnicity
– Religion

Career opportunities
– International aid
– Politics
– International business
– Journalism, media and communications
– Travel and tourism

Diploma of Public Policy

Explore the fundamental components of the Australian political system and policy making through this exciting Diploma. We offer three main streams to guide your study and you can choose whether to undertake this course as a stand-alone qualification or in conjunction with another degree.

Areas of study
– International governance
– Politics
– Sustainability governance

Career opportunities
– Government sector
– Not-for-profit organisations
– Policy adviser
– Policy analyst

Psychology

Psychology can be taken as a major or minor in Bachelor of Arts, Bachelor of Social Science and Bachelor of Science courses. These degrees give you career options across an incredibly broad range of fields from public affairs to marketing to health services. If you wish to study Psychology to become a clinical psychologist, you’ll need to undertake the four year Bachelor of Psychology with Honours. Please see the Psychology brochure for details on this course or visit utas.edu.au/courses

Help make the world a better place. The Bachelor of Social Science gives you the skills and qualifications for a career in community development, foreign affairs, politics or social welfare. No matter what, you can be sure this degree provides you with the skills employers want such as critical thinking, research analysis, problem solving, communication, creativity and versatility.

The degree draws together a number of disciplines related to how people behave. Subject choices range from Politics and Policy to Human Resource Management to Aboriginal Studies to Psychology. The units are taught in such a way to help you apply solutions to real-world issues.

It differs from a Bachelor of Arts in that you select two majors and one minor to complete your degree. (Select one study area from the options in Major one – below – and one study area from Major two.) Many of our subjects are taught within or in conjunction with other faculties, providing you with a well-rounded education.

**Major One**

**Politics and Policy**
Explore national and international politics and examine the dimensions of power in different contexts including international relations, public policy, war, freedom, democracy, and human rights.

**Sociology**
Explore social identities, differences, structures and societal change. The course teaches skills in research and prepares you for a career in research, government, non-profit organisations and other human-focused fields.

**Major Two**

**Criminology**
Investigate the intersection of law and society. The course considers different perspectives from social policies, terrorism and policing, offender rights, victim impacts and juvenile justice.

**Geography and Environmental Studies**
This study of the geophysical world looks at the extraordinary variety of landscapes, environments and species on our planet. It include study into climate, ecology, agriculture and conservation.

**Human Resource Management**
Learn the secrets of effective, contemporary management of a business’s human capital, from strategic HRM and organisational design to managing staff in multinational enterprise and leadership.

**International Relations**
Understanding the process, substance, and changing nature of international relations is vital in a globalised world. The course also considers contemporary political concepts, debates and practices.

**Journalism, Media and Communications**
The course covers the essentials of news writing, researching and interviewing and looks at the opportunities presented by new practices, technologies, platforms and policies in modern media.

**Politics and Policy**
Explore national and international politics and examine the dimensions of power in different contexts including international relations, public policy, war, freedom, democracy, and human rights.

**Psychology**
Learn about major areas in psychology and basic techniques for psychological investigations and gain insight into research methodologies, individual social behaviours, group and intergroup relations.

**Sociology**
Explore social identities, differences, structures and societal change. The course teaches skills in research and prepares you for a career in research, government, non-profit organisations and other human-focused fields.

**Minor**
- Aboriginal Studies
- Criminology
- Economics
- Geography
- Human Resource Management
- International Relations
- Politics and Policy
- Psychology
- Sociology

**Career opportunities**
- Community development officer
- Diplomat
- Foreign affairs officer
- Human resource manager
- Policy analyst
- Political scientist
- Politician
- Public servant (local, state and national levels)
- Social or market researcher
- Social welfare advocate

*General Entry Requirements are briefly outlined in the “How to apply” section. Visit utas.edu.au/admissions for further details.
Bachelor of Social Science (Police Studies)

Duration
Three years full-time or equivalent part-time

Prerequisites
Successful completion of TCE (Tasmanian Certificate of Education) or interstate equivalent or General Entry Requirements*

Entry
February and July

Location
Hobart, Launceston, Distance

Course code
13D

2015 Round 1
Clearly-in ATAR
65

Career options
- Federal Police officer
- Government – police policy analyst
- Intelligence officer
- Paralegal worker
- Risk analyst
- Security services
- State Police officer

The Bachelor of Social Science (Police Studies) builds on a strong social science foundation and provides specific knowledge and skills of policing. Through this program you’ll study policing, criminology risk management, law, philosophy or history.

Students undertake two majors and a minor in this degree in one of two pathways dependent on professional experience. This In-Service Pathway is for applicants employed as a Tasmania Police Recruit. Students engage in specific topics related to their training as police officers. The Conventional Pathway is for those who qualified for entry under the University’s General Entry Requirements or for police officers who joined Tasmania Police before 2010. Under the Conventional Pathway, students have more variety in their subject choices.

Areas of study
- Police Studies
- Aboriginal Studies
- Criminology
- Gender Studies
- History
- Human Resource Management
- Information Systems
- Law
- Philosophy
- Politics and Policy
- Psychology
- Risk Management
- Sociology

A professional qualification in Social Work is a nationally-accredited qualification, which opens the door for graduates to work in Australia and overseas. Students learn a foundation of Social Work principles, research and theory, complemented by two professionally supervised fieldwork placements.

For each of the two years of study, students undertake one semester of academic study in Social Work Theory and Context and one semester of practical field placement.

Area of study
You will complete twelve academic units which include two fieldwork placements (Practicum 1 & 2).

Career opportunities
- Child welfare officer
- Corrections officer
- Counsellor
- Manager of human services
- Social worker
- Women’s and youth services officer

Professional recognition
Both courses in social work at the University of Tasmania can be undertaken to obtain a professional qualification. The Bachelor of Social Work is the only undergraduate course in Tasmania which leads to accreditation with the Australian Association of Social Workers.

Alternative pathway
An alternative pathway to professional qualification is available through post-graduate study. (See Master of Social Work in utas.edu.au/courses).

Additional information
Desirable: units in Aboriginal Studies

Tourism

Tourism can be undertaken as a second major in the Bachelor of Arts. (Bachelor of Arts – Aboriginal Studies, and Tourism.)

*General Entry Requirements are briefly outlined in the ‘How to apply’ section. Visit utas.edu.au/admissions for further details.
Financial matters

When you commence study with the University of Tasmania in a Commonwealth supported place (CSP), you must contribute towards the cost of your tuition. The amount you pay depends on which units you study and the payment method you choose.

Student contribution amounts and rules

To be eligible for a CSP you must be an Australian citizen, a New Zealand citizen or hold an Australian Permanent Resident Visa.

The student contribution is calculated based on the units of study that you enrol in. Each unit is assigned to a ‘band’ according to the subject area it comes from. The band tells us how much to charge for one Equivalent full-time student load (EFTSL), equivalent to 100 credit points, or 100% load.

Most units at the University of Tasmania are 12.5 credit points (0.125 EFTSL), so to calculate the cost of a unit we multiply the contribution amount for that designated band by 0.125. For example, the student contribution amount for a 12.5 credit point Nursing unit of study would be $6152 \times 0.125 = $1076.63.

A typical three-year degree is made up of 24 units.

HECS-HELP

The majority of university students across Australia choose to defer their student contribution until after they have commenced in the workforce. You can do this by taking out a HECS-HELP loan. HECS-HELP is available to eligible students enrolled in a CSP. This loan can cover all or part of the student contribution amount. You are eligible for HECS-HELP if you are a Commonwealth supported student and an Australian citizen or the holder of a Permanent Humanitarian Visa.

Under this option, the Commonwealth Government pays the loan amount directly to the University of Tasmania. Then, when your salary reaches the minimum repayment threshold, you will make compulsory repayments through the tax system.

*The student contribution amounts for mathematics, statistics and science are subject to passage of the Higher Education Support Amendment (Student Contribution Amounts and Other Measure Bill 2012).

1. For pre-2010 students, the maximum annual student contribution amount that may be charged for Education and Nursing units is $4696.

2. From 1 January 2010, the maximum annual student contribution amount for commencing Commonwealth supported students undertaking Education and Nursing units of study has been increased from the ‘national priority’ rate to the Band 1 rate.

3. The increased maximum annual student contribution amounts affect only students who commence their course of study at a higher education provider on or after 1 January 2010.

4. If you are a mathematics, science, education, nursing or midwifery graduate you may be eligible for a HECS-HELP Benefit.

5. This table is a guide only. Fees are reviewed each year by the Commonwealth Government and may vary.

Other costs

Students are required to pay a student services and amenities fee (SSAF). In 2015, the fee is around $340 for a full-time undergraduate student.

Part-time students are charged on a pro-rata of study load undertaken. Students who are unable to pay the fee up-front can defer all or part of the fee through an element of the Higher Education Loan Program, known as SA-HELP.

The fee contributes to funding student services such as legal and health services, counselling, and sport and recreation activities.

You will also need to cover costs such as textbooks, materials, art supplies or software for your course. These costs can vary from course to course.

Accommodation and general living expenses will also vary depending on your chosen living arrangements.

To learn more about accommodation options, visit utas.edu.au/accommodation
How to apply

Applications should be made directly to the University of Tasmania, depending on your course and when you want to commence.

**Year 12 applicants**

For Year 12 students, applications for Semester 1 should be submitted electronically via the University’s online application process.

The ‘timely’ application period opens in August and closes in the last week of September. Late applications will be accepted by the University, but some programs that have special requirements and will not accept late applications.

**Changing your preference**

You can change your original ‘timely’ application course preferences during the Change of Preference period in December. This allows you to modify your course selection depending on your results from your final examinations.

Learn more by visiting [utas.edu.au/apply](utas.edu.au/apply)

**Non-school leaver (mature aged) applicants**

If you are not a Year 12 student, you apply directly to the University via the online application process. As a non-year 12 student your application will be considered on a broad range of factors, including previous studies, work experience and any extra requirements specified for the course.

To meet the General Entry Requirements (GER) into an undergraduate degree, at least one of the following must be completed:

– Year 12
– Certificate IV, diploma or advanced diploma and/or
– Successful completion of a University enabling program
– Personal competency statement demonstrating how work experience or background meets the University’s General Entry Requirements

Particular degrees may also require you to sit a Special Tertiary Admissions Test.

Visit [utas.edu.au/courses](utas.edu.au/courses) or [utas.edu.au/apply](utas.edu.au/apply) for further details.
