The University of Tasmania has recently re-confirmed its position as one of Australia’s best universities in a wide range of disciplines, as ranked by the internationally recognised QS World University Rankings for 2015.

The international ratings agency evaluate more than 3000 universities for academic reputation, employer reputation and research impact.
By keeping pace with and anticipating changes in business, our University ensures your degree is relevant now and into the future.

Business reaches and affects every facet of society. New markets and traditional industries alike need to cope with a changing world. Each will demand people with a firm understanding of the fundamentals, people who can devise and implement new strategies, respond to opportunities and meet the challenges of a changing world.

Different roles need different skills. These range from working with people, thinking creatively, marshaling talent, measuring performance and pursuing success. They can be applied to all business endeavours, from creating your own business opportunities to working within organisations or government to help determine policy, planning and investment.

You’ll learn from people who are experts in the areas they teach. To ensure their lessons stay relevant, they maintain strong relationships with industry, professional associations, other academics and government.

Research keeps us at the forefront of business change.

Our researchers undertake quality research in accounting, corporate governance, economics, finance, management and marketing. This high-quality new thinking feeds into our teaching and is reflected in our University being ranked in the top 2% in the world in the latest QS World Rankings.

A business degree from our University has real-world application and recognition.
Who Studies Business?

A Business degree is one of the most sought after degrees at university. It is also one of the most asked for by employers. All sectors of a modern economy rely on effective management, financial control and administration. A knowledge of business helps round out a CV. A depth of understanding in a particular discipline can take your CV from the list of maybes to the top of the pile. A Business qualification provides an excellent generalist degree for many graduate positions. It can also provide the specialist knowledge to pursue focused careers in areas like accounting, banking and finance, human resources, marketing, systems analysis and more.

To study business is to study how to make an organisation successful. As well as understanding the fundamentals of business, you’ll develop workplace skills such as critical thinking, strategic analysis and measured decision-making.

Economics will give you a more detailed knowledge of micro and macroeconomic issues, both national and international. It can also help you understand how strategic decisions are made by individuals, by firms and by governments.

Career opportunities with a business degree

A Business degree will provide a wide range of broad business fundamentals, but also allows you to choose specialist studies so you may focus your career in one direction.

- Accounting
- Advertising
- Auditing and tax consulting
- Business consulting
- Business development
- Central banking
- Corporate finance
- Economist
- Electronic business
- Human resource management
- Industrial relations
- Information systems management
- Local, state and federal government
- Management
- Marketing and market research
- Merchant banker
- Public relations
- Services marketing
- Systems analysis
- Tourism

Professional recognition

Units and majors offered in the Bachelor of Business give you qualifications you’ll need to apply for membership of various professional bodies. To be eligible, you’ll need to successfully complete the units endorsed by that body. Membership details can be obtained from the appropriate professional body.

- Institute of Chartered Accountants in Australia
- CPA Australia
- Australian Human Resources Institute
- Australian Institute of Management
- Australian Marketing Institute
- Chartered Institute of Company Secretaries in Australia
- National Institute of Accountants
**Your study opportunities**

Different students have different goals.

If you simply want to give yourself the best start for a better chance at a great career, a degree course is an excellent option.

If you want to pursue a passion or want more specialist knowledge and expertise in a chosen field, a double degree or a degree with honours can give you fascinating career opportunities. Many of our courses also let you add units from different study areas.

**Degrees: Major and Minor (specialist) studies**

Studying a particular area of interest can focus your learning, research and communication skills.

A single degree usually takes three years to finish and requires the successful completion of 24 units.

Your major area of study represents eight of these units (two introductory, two intermediate, four advanced units).

You can complement this knowledge with a minor area of study. This is made up of four units (two introductory, two intermediate).

At our University, you can further diversify, and improve your career options, by taking up capacity study units in another field of study from another faculty, like Arts. Or even do a double major.

Most students select one major (eight units), one minor (four units), degree electives (four introductory units) and student electives or a second major (eight units).

Depending on your chosen course, you may be able to combine learning on and off campus, or study part-time or online. Flexible study options can make it easy to fit study around your work and life commitments.

**Double or Combined degrees**

Double degrees are pretty much exactly how they sound. A double degree merges the core requirements of two different degrees. This lets you graduate with the equivalent of two degrees faster than it would take to do two separate degrees.

Double degrees can give you greater depth of knowledge in more than one area. This gives you more career options.

If you’re academically capable and want to challenge yourself, a double degree is an ideal way to get the most from your time at university.

A Bachelor of Business degree can be combined with bachelor degrees in Arts, Economics, Information and Communication Technology, Laws or Science.

**Honours**

Honours can help you gain deeper knowledge in your specialist area. An additional Honours year can mean you start your career higher up the ladder and progress in your career faster.

It can also lead to postgraduate study and a career in research or academia.

**Alternative entry pathway**

If you don’t have the prerequisites for direct entry into a Business degree, an alternative entry pathway helps you get the qualifications you need to get into the course you want.

One choice is a Bachelor of General Studies – Foundation Year Pathway. Designed for mature age students returning to study, VET graduates or students with a low ATAR, the course gives you achievement at introductory level in at least two degree units.

Alternatively, the University Preparation Program (UPP) offers mature age students, or those who did not complete year 11 and 12, the skills critical for success at university across a broad range of subjects.

An AQF-recognised Diploma, or an Advanced Diploma in a Business related discipline from an Australian TAFE or other Registered Training Organisation, is another option. It may also mean you’re eligible for advanced standing in a degree.

If you have already started a degree at our University, or at an Australian or overseas tertiary institution, you may be eligible for advanced standing in a similar degree.

▼Choose specialist studies to focus your career.
The learning experience at the University of Tasmania goes beyond lectures and tutorials. Guest lecturers give you a chance to learn from working professionals from all areas of business, commerce and government. Corporate internships and mentoring opportunities (in both the public and private sectors) can add greater depth to your studies.

Study Abroad

In-country programs
A range of programs can be completed as part of your studies. Our international exchange program lets you take a semester of study at universities around the world, including partner institutions in Sweden, Germany, Canada, the Netherlands, UK, China and the United States. Students can develop their language skills in a native-speaking environment, or undertake cultural or media research (Japan and Indonesia), take part in Buddhist Studies in India, or undertake professional placement opportunities by volunteering in non-government organisations across Asia.

Study Abroad Scholarships
The University actively encourages our students to extend their learning opportunities by undertaking international study exchange. To facilitate this, we offer a range of scholarships and financial assistance. Participants may be eligible for OS-HELP Loans or scholarship funding to assist with their airfares, accommodation and other expenses.

Corporate Internship Program
This unit of study combines academic components, assessed by the University of Tasmania, with a workplace experience for one or two days a week. It is a compulsory part of some study programs, and a recommended part of many others.

High-achieving and academically capable students in the second or third year of their studies are offered internships. These give you an invaluable opportunity to put the principles, theory and skills you’ve acquired into practice. To round out the real world experience, you will go through a competitive application, interview and selection process. This ensures our partner businesses get the best candidate.

Many students who undertake the internship program go onto further employment with their placement provider.

Additional learning resources
We want to help you get the most from your time.
You’ll be taught by subject matter experts. These are people who are passionate about what they teach. They’ll encourage you to share questions and perspectives, inside lectures and outside the classroom.
Our administration team is available to discuss unit choices, degree planning, credit and advanced standing. Dedicated Student Advisers are also available for advice, support and assistance with academic studies or things affecting your personal wellbeing or circumstances.
We also provide online tutorials to help with your research assignments and develop your skills faster.

A Business degree is typically a three year, full-time course. We offer part-time courses, face-to-face, online and distance study options. There is a range of units available over the summer, spring and winter breaks.

Scholarships
Each year, the University offers more than 900 awards, across all academic areas.
The awards are based on merit and equity and reward excellence and improve access for new or continuing students. Application details and selection criteria for each award are clearly noted for each award on our website and within the online application.

This degree will allow you to develop a detailed understanding of economics at both international and national levels. You will learn about how micro and macroeconomic systems are organised and how decisions are made by individuals, businesses, firms and governments.

**Majors**

Students are required to complete one of the following majors:
- Economic Analysis
- Economic Foundations

The former provides deep learning in the principle areas of economics. The second major provides breadth by covering a wide range of fields.

In addition, you may wish to consider completing the Finance major or one major from another field of study, e.g. Accounting or Computing.

**Career opportunities**
- Banking industry
- State and federal government
- Consulting firms
- Economic research
- Fund management
- Insurance
- Market forecasting
- Statistics
- Stockbroking

**Professional recognition**

Students can apply to become special members of the Economics Society of Australia.

Students completing a Bachelor of Economics with a Finance major may seek membership of the Australian Institute of Banking and Finance.

---

*General Entry Requirements are briefly outlined in the ‘How to apply’ section. Visit [utas.edu.au/admissions](http://utas.edu.au/admissions) for further details.*
Finance

Taken as a major in the Bachelor of Business or Bachelor of Economics. This program gives you the specialist knowledge in capital markets and financial institutions, investment, financial planning, corporate finance, portfolio management, derivative securities and international finance. You'll need to take a Bachelor of Business or Economics in Hobart or via distance learning and major in Finance.

With this degree you'll acquire knowledge of the fundamental components of international trade. It is ideal grounding for a career in organisations and government departments involved with freight forwarding and international business.

You'll learn to identify problems and provide solutions for industry in a range of relevant fields, such as customs broking, cargo regulatory systems, freight forwarding, logistics management and global procurement.

Additional information

Successful completion of General Mathematics and a science subject is recommended. Alternative entry is available for applicants with a minimum of 2 years’ appropriate work experience.

Study and learn essential business fundamentals as well as the opportunity to specialise.

*General Entry Requirements are briefly outlined in the ‘How to apply’ section. Visit utas.edu.au/admissions for further details.
Hospitality

**Bachelor of Business Administration (Hospitality Management)**

- **Duration**: 1.5 years full-time or equivalent part-time
- **Prerequisites**: Successful completion of a TasTAFE Advanced Diploma of Hospitality Management, or equivalent
- **Entry**: November
- **Location**: Hobart, Launceston
- **Course code**: 33G
- **2015 Round 1 Clearly-in ATAR**: N/A

This course provides holders of an Advanced Diploma of Hospitality Management with the opportunity to gain a professional university degree in hospitality management.

At the end of the degree, you will have a sound knowledge of the fundamental principles and concepts of management.

You will be able to recognise the value of research, critical thinking and effective communication. Specific professional skills include interpersonal communication, services management, team work, report writing and problem-solving techniques.

**Career opportunities**
- Hospitality management
- Human resource management
- Marketing

**Professional recognition**
As a graduate you will be eligible to apply for membership status in the Catering Institute of Australia.

Human Resource Management

Taken as a major in the Bachelor of Business, this program gives you the skills and knowledge to effectively manage the people side of a business. This includes knowledge of employment relations, strategic HRM, regulations, recruitment, recognition, employment agreements, motivation, organisational design and leadership.

You’ll need to complete a Bachelor of Business in Hobart or via distance learning and major in Human Resource Management.

International Logistics Management

This major in the Bachelor of Business provides you with a practical and flexible framework for understanding and analysing business operations, and gives you the knowledge to be involved in a businesses strategic decision-making.

You’ll need to complete a Bachelor of Business at our Launceston campus or via distance learning and major in International Logistics Management.

Management

As a major in the Bachelor of Business, this general program sets you up for a career in business. You’ll gain a broad, relevant range of abilities in areas like human resources, business communication, accounting and finance, leadership, risk management, marketing, management strategy, corporate regulation and logistics.

You’ll need to complete a Bachelor of Business in Hobart or Launceston and then major in Management.

Systems Management

This is taken as a major in the Bachelor of Business (referred to as Information and Communication Technology). Learn to apply modern business management principles (business communication, accounting and finance, leadership, risk management, marketing, management strategy, corporate regulation and logistics) to existing and emerging technologies, especially the integration of information systems.
Tourism

Bachelor of Business Administration (Tourism Management)

<table>

</tbody>
</table>

This course provides holders of an Advanced Diploma of Tourism Management with the opportunity to gain a professional university degree in tourism management.

The degree gives you a sound knowledge of the fundamental principles and concepts of management, a familiarity with significant literature in the field and the ability to review, consolidate, extend and apply the knowledge and techniques to the tourism sector.

Career opportunities
Graduates will have the knowledge and expertise to work in diverse sectors of the travel and tourism industry such as:
- Arts, museums and historic sites
- Destination development
- Events and convention management
- Marketing and promotions
- Parks and wildlife service
- Sport and recreational development
- Tour operations
- Tourism journalism and media
- Travel agent

Other Business and Management Degrees

If you are interested in studying business, you may also be interested in looking at the following degrees as detailed in our Maritime Studies brochure:
- Bachelor of Applied Science (Maritime Technology Management) – J3P
- Bachelor of Business (Maritime and Logistics Management) – J3X
Financial matters

When you commence study with the University of Tasmania in a Commonwealth supported place (CSP), you must contribute towards the cost of your tuition. The amount you pay depends on which units you study and the payment method you choose.

Student contribution amounts and rules

To be eligible for a CSP you must be an Australian citizen, a New Zealand citizen or hold an Australian Permanent Resident Visa. The student contribution is calculated based on the units of study that you enrol in. Each unit is assigned to a ‘band’ according to the subject area it comes from. The band tells us how much to charge for one Equivalent full-time student load (EFTSL), equivalent to 100 credit points, or 100% load.

Most units at the University of Tasmania are 12.5 credit points (0.125 EFTSL), so to calculate the cost of a unit we multiply the contribution amount for that designated band by 0.125. For example, the student contribution amount for a 12.5 credit point Nursing unit of study would be $6152 \times 0.125 = $1076.63.

A typical three-year degree is made up of 24 units.

HECS-HELP

The majority of university students across Australia choose to defer their student contribution until after they have commenced in the workforce. You can do this by taking out a HECS-HELP loan. HECS-HELP is available to eligible students enrolled in a CSP. This loan can cover all or part of the student contribution amount. You are eligible for HECS-HELP if you are a Commonwealth supported student and an Australian citizen or the holder of a Permanent Humanitarian Visa.

Under this option, the Commonwealth Government pays the loan amount directly to the University of Tasmania. Then, when your salary reaches the minimum repayment threshold, you will make compulsory repayments through the tax system.

To learn more, visit studyassist.gov.au

Other costs

Students are required to pay a student services and amenities fee (SSAF). In 2015, the fee is around $340 for a full-time undergraduate student.

Part-time students are charged on a pro-rata of study load undertaken. Students who are unable to pay the fee up-front can defer all or part of the fee through an element of the Higher Education Loan Program, known as SA-HELP.

The fee contributes to funding student services such as legal and health services, counselling, and sport and recreation activities.

You will also need to cover costs such as textbooks, materials, art supplies or software for your course. These costs can vary from course to course.

Accommodation and general living expenses will also vary depending on your chosen living arrangements.

To learn more about accommodation options, visit utas.edu.au/accommodation

*The student contribution amounts for mathematics, statistics and science are subject to passage of the Higher Education Support Amendment (Student Contribution Amounts and Other Measure Bill 2012).
1. For pre-2010 students, the maximum annual student contribution amount that may be charged for Education and Nursing units is $4696.
2. From 1 January 2010, the maximum annual student contribution amount for commencing Commonwealth supported students undertaking Education and Nursing units of study has been increased from the ‘national priority’ rate to the Band 1 rate.
3. The increased maximum annual student contribution amounts affect only students who commence their course of study at a higher education provider on or after 1 January 2010.
4. If you are a mathematics, science, education, nursing or midwifery graduate you may be eligible for a HECS-HELP Benefit.
5. This table is a guide only. Fees are reviewed each year by the Commonwealth Government and may vary.
Applications should be made directly to the University of Tasmania, depending on your course and when you want to commence.

**Year 12 applicants**

For Year 12 students, applications for Semester 1 should be submitted electronically via the University’s online application process.

The ‘timely’ application period opens in August and closes in the last week of September. Late applications will be accepted by the University, but some programs that have special requirements and will not accept late applications.

**Changing your preference**

You can change your original ‘timely’ application course preferences during the Change of Preference period in December. This allows you to modify your course selection depending on your results from your final examinations.

Learn more by visiting [utas.edu.au/apply](http://utas.edu.au/apply)

**Non-school leaver (mature aged) applicants**

If you are not a Year 12 student, you apply directly to the University via the online application process. As a non-year 12 student your application will be considered on a broad range of factors, including previous studies, work experience and any extra requirements specified for the course.

To meet the General Entry Requirements (GER) into an undergraduate degree, at least one of the following must be completed:

- Year 12
- Certificate IV, diploma or advanced diploma and/or
- Successful completion of a University enabling program
- Personal competency statement demonstrating how work experience or background meets the University’s General Entry Requirements

Particular degrees may also require you to sit a Special Tertiary Admissions Test.
