

Business and Economics

2017

The University of Tasmania is ranked in the top 2% of universities in the world.*

In addition, in the last two years we have received **more teaching awards than any other Australian university.**[^]

With programs embedded within local and national industries, and additional campuses in Sydney and China, our students gain practical learning and research opportunities recognised around the globe.

We help you become who you want to be

By keeping pace with, and anticipating changes in business, our University ensures your degree is relevant now and into the future.

Business reaches and affects every facet of society. New markets and traditional industries alike need to cope with a changing world. Each will demand people with a firm understanding of the fundamentals, people who can devise and implement new strategies, respond to opportunities and meet the challenges of a changing world.

Different roles need different skills. These range from working with people, thinking creatively, marshalling talent, measuring performance and pursuing success. They can be applied to all business endeavours, from creating your own business opportunities, to working within organisations or government to help determine policy, planning and investment.

You'll learn from people who are experts in the areas they teach. To ensure their lessons stay relevant, they maintain strong relationships with industry, professional associations, other academics and government.

Research keeps us at the forefront of business change.

Our researchers undertake quality research in accounting, corporate governance, economics, finance, human resources, management, marketing and tourism. This high-quality new thinking feeds into our teaching and is reflected in our University being ranked in the top 2% in the world in the latest QS World Rankings.

▼ **A business degree from our University has real-world application and recognition.**

Studying Business and Economics

Who studies Business and Economics?

A degree in business and economics is one of the most sought-after programs at university. It is also one of the most-asked for by employers. All sectors of a modern economy rely on effective management, financial control and administration. A knowledge of business helps round out a CV. A depth of understanding in a particular discipline can take your CV from the list of maybes to the top of the pile. A qualification in business and economics provides an excellent generalist degree for many graduate positions. It can also provide the specialist knowledge to pursue focused careers in areas like accounting, banking and finance, human resources, marketing, systems analysis and more.

To study business is to study how to make an organisation successful. As well as understanding the fundamentals of business, you'll develop workplace skills such as critical thinking, strategic analysis and measured decision-making.

Economics will give you a detailed knowledge of micro and macroeconomic issues, both national and international. It can also help you understand how strategic decisions are made by individuals, by firms and by governments.

Career opportunities with a business or economics degree

A business or economics degree will provide a wide range of broad business fundamentals, and also allows you to choose specialist study areas to focus your career direction.

- Accounting
- Advertising
- Auditing and tax consulting
- Business consulting
- Business development
- Central banking
- Corporate finance
- Economics
- Electronic business
- Human resource management
- Industrial relations
- Information systems management
- Local, state and federal government
- Management
- Marketing and market research
- Merchant banking
- Public relations
- Services marketing
- Systems analysis
- Tourism

Professional recognition

Units and majors offered in the business and economics degrees give you the qualifications you'll need to apply for membership of various professional bodies. To be eligible, you'll need to successfully complete the units endorsed by that body. Membership details can be obtained from the appropriate professional body.

- Institute of Chartered Accountants in Australia
- CPA Australia
- Australian Human Resources Institute
- Australian Institute of Management
- Australian Marketing Institute
- Chartered Institute of Company Secretaries in Australia
- Institute of Public Accountants

Your study opportunities

Different students have different goals.

If you simply want to give yourself the best start for a better chance at a great career, a degree is an excellent option.

If you want to pursue a passion or want more specialist knowledge and expertise in a chosen field, a combined degree or a degree with honours can give you fascinating career opportunities. Many of our courses also let you add units from different study areas.

Degrees: Major and Minor (specialist) studies

Studying a particular area of interest can focus your learning, research and communication skills.

A single degree takes three years to finish and requires the successful completion of 24 units.

Your major area of study represents eight of these units (two introductory, two intermediate, four advanced units).

You can complement this knowledge with a linked minor. This is made up of four units (two introductory, two intermediate).

Most students select one major (eight units), one minor (four units), degree electives (four introductory units) and six student electives and two breadth units.

At our University, you can further diversify, and improve your career options, by taking up units in another field of study from another faculty, like Arts, Science and Law.

Depending on your chosen course, you may be able to combine learning on and off campus, or study part-time or online. Flexible study options can make it easy to fit study around your work and life commitments.

Combined degrees

Combined degrees are pretty much exactly how they sound. A combined degree merges the core requirements of two different degrees. This lets you graduate with the equivalent of two degrees faster than it would take to do two separate degrees.

Combined degrees can give you greater depth of knowledge in more than one area. This gives you more career options.

If you're academically capable and want to challenge yourself, a combined degree is an ideal way to get the most from your time at university.

A Bachelor of Business degree and a Bachelor of Economics degree can be combined with bachelor degrees in Arts, Information and Communication Technology, Laws or Science.

Honours

Honours can help you gain deeper knowledge in your specialist area. An additional Honours year can mean you start your career higher up the ladder and progress in your career faster.

It can also lead to postgraduate study and a career in research or academia.

Alternative entry pathway

If you don't have the prerequisites for direct entry into a business or economics degree, an alternative entry pathway helps you get the qualifications you need to get into the course you want.

One choice is a Bachelor of General Studies - Foundation Year Pathway. Designed for mature age students returning to study, VET graduates or students with a low ATAR, the course gives you achievement at introductory level in at least two degree units.

Alternatively, the University Preparation Program (UPP) offers mature age students, or those who did not complete year 11 and 12, the skills critical for success at university across a broad range of subjects.

An AQF-recognised Diploma, or an Advanced Diploma in a Business related discipline from an Australian TAFE or other Registered Training Organisation, is another option. It may also mean you're eligible to be considered for advanced standing in a degree.

If you have already started a degree at our University, or at an Australian or overseas tertiary institution, you may be eligible for advanced standing in a similar degree.

▼ Choose specialist studies to focus your career.

Vice-Chancellor's National University **Scholarships** valued at \$18,000 per year, for up to five years of study in any course

Your study experience

The learning experience at the University of Tasmania goes beyond lectures and tutorials.

Guest lecturers give you a chance to learn from working professionals from all areas of business, commerce and government.

Work integrated learning practices such as corporate internships and mentoring opportunities (in both the public and private sectors) can add greater depth to your studies.

Study Abroad

In-country programs

A range of programs can be completed as part of your studies. Our international exchange program lets you take a semester of study at universities around the world, including partner institutions in Sweden, Germany, Canada, the Netherlands, UK, China and the United States. You can develop your language skills in a native-speaking environment, or undertake cultural or media research (Japan and Indonesia), take part in Buddhist Studies in India, or undertake professional placement opportunities by volunteering in non-government organisations across Asia.

Study Abroad Scholarships

The University actively encourages you to extend your learning opportunities by undertaking international study exchange. To facilitate this, we offer a range of scholarships and financial assistance.

You may be eligible for OS-HELP Loans or scholarship funding to assist with airfares, accommodation and other expenses.

Corporate Internship Program

Corporate Internship units of study combine academic components and are assessed jointly by the University of Tasmania and a workplace mentor. The units provide students with a workplace learning experience for either one or two days per week.

High-achieving students in the second or third year of their studies are offered the opportunity to apply for internships. An internship will provide you with an invaluable opportunity to apply the principles, theories and skills you have acquired into practice. To access this experience, you will undertake a formal competitive processes including, internship application, interview and selection. This system ensures our partner businesses are able to select the most suitable candidate for the internship. Many students who undertake an internship program are able to form beneficial professional relationships which may improve their employment opportunities upon completion of their degree.

Additional learning resources

We want to help you get the most from your time.

You'll be taught by subject matter experts. These are people who are passionate about what they teach. They'll encourage you to share questions and perspectives, inside lectures and outside the classroom.

Our team of Faculty Officers is available to discuss your unit choices, degree planning and advanced standing. Dedicated Student Advisers are also available for advice, support and assistance with academic studies or issues affecting your personal well-being or circumstances.

We also provide online tutorials to help with your research assignments and develop your skills faster.

A business or economics degree is typically a three year, full-time course. We also offer part-time courses, face-to-face, online and distance study options.

Scholarships

Each year, the University offers more than 900 awards, across all academic areas. The awards are based on merit and equity and reward excellence and improve access for new or continuing students. Application details and selection criteria for each award are clearly noted on our website and within the online application.

See: utas.edu.au/scholarships-bursaries

'My internship was based a lot around social media content generation so it was really good for me to get that from a perspective in the workplace. Seeing an organisation employ their brand day to day and in every aspect was really interesting. Practical experience really shows if it's what you want to do and how you could actually really achieve good results.'

Georgina Gow

**Bachelor of Business
Marketing Internship at Tourism Northern Tasmania**

Course information

Accounting

Taken as a major in the Bachelor of Business. Accountants advise on and manage the financial aspects of a business or organisation. This includes: capital investment, taxation, shareholding, auditing, personal finance and corporate reporting and regulation.

You'll need to take a Bachelor of Business at any of our campuses (in Hobart, Launceston or the Cradle Coast) then major in accounting.

Business

▼ Bachelor of Business

Prerequisites	Successful completion of TCE (Tasmanian Certificate of Education) including General Mathematics or interstate equivalent or General Entry Requirements*
Entry	February and July
Location	Hobart*
Course code	33E
2016 Round 1 Clearly-in ATAR	65

This degree will allow you to develop a detailed understanding of economics at both international and national levels. You will learn about how micro and macroeconomic systems are organised and how decisions are made by individuals, businesses, and governments.

Majors

- Economic Analysis
- Economic Foundations
- Finance (2nd major only)

An Economic Analysis major provides deep learning in the principle areas of economics. You may also study finance as part of our Bachelor of Business degree (see previous page). In addition, you may wish to consider completing a major from another field of study, e.g. computing.

Career opportunities

- Banking industry
- State and federal government
- Consulting firms
- Economic research
- Fund management
- Insurance
- Market forecasting
- Statistics
- Stockbroking

Professional recognition

Students can apply to become special members of the Economics Society of Australia.

Students completing a Bachelor of Economics with a Finance major may seek membership of the Australian Institute of Banking and Finance.

The University of Tasmania
is **Australia's**
4th oldest university

*General Entry Requirements are briefly outlined in the 'How to apply' section. Visit utas.edu.au/admissions for further details. *First year only

*General Entry Requirements are briefly outlined in the 'How to apply' section. Visit utas.edu.au/admissions for further details. *Some first year units can be taken in Launceston and Cradle Coast.

Finance

Taken as a major in the Bachelor of Business or Bachelor of Economics. This program gives you the specialist knowledge in capital markets and financial institutions, investment, financial planning, corporate finance, portfolio management, derivative securities and international finance. You'll need to take a Bachelor of Business or Economics in Hobart or via distance learning and major in Finance.

▼ Bachelor of International Logistics (Freight Forwarding)

Duration	Three years full-time or equivalent part-time
Prerequisites	Successful completion of TCE (Tasmanian Certificate of Education) or interstate equivalent or General Entry Requirements*
Entry	February and July
Location	Launceston, Distance
Course code	23G1
2016 Round 1 Clearly-in ATAR	65

This degree provides you with knowledge of critical elements of the international logistics industry. The focus of the program is to identify problems and provide solutions for industry in a range of relevant fields such as exporting and importing, customs broking, freight-forwarding, logistics management, global procurement and warehousing.

Additional information

Alternative entry is available for applicants with a minimum of 2 years' appropriate work experience.

Areas of study

The units you will study give an in-depth focus on the international logistics and freight forwarding industries. Industry-specific units include:

- Trade and border controls
- Air, land and sea freight transport
- Logistics management
- Global procurement
- Warehousing management

Career opportunities

Graduates will develop management careers in organisations and government departments involved with international trade, business, freight forwarding, logistics and transport, both in Australia and overseas.

Hospitality

▼ Bachelor of Business Administration (Hospitality Management)

Duration	1.5 years full-time or equivalent part-time
Prerequisites	Successful completion of a TasTAFE Advanced Diploma of Hospitality Management, or equivalent
Entry	November
Location	Hobart, Launceston
Course code	33G
2016 Round 1 Clearly-in ATAR	N/A

This course provides holders of an Advanced Diploma of Hospitality Management with the opportunity to gain a professional university degree in hospitality management.

At the end of the degree, you will have a sound knowledge of the fundamental principles and concepts of management.

You will be able to recognise the value of research, critical thinking and effective communication. Specific professional skills include interpersonal communication, services management, team work, report writing and problem-solving techniques.

Career opportunities

- Hospitality management
- Human resource management
- Marketing

Professional recognition

As a graduate you will be eligible to apply for membership status in the Catering Institute of Australia.

Human Resource Management (HRM)

Taken as a major in the Bachelor of Business, this program gives you the skills and knowledge to effectively manage the people side of a business. This includes knowledge of employment relations, strategic HRM, regulations, recruitment, recognition, employment agreements, motivation, organisational design and leadership.

You'll need to complete a Bachelor of Business in Hobart or via distance learning and major in Human Resource Management.

Information Communication Technology (ICT)

This ICT major, studied alongside the emerging and traditional areas of business, will offer a wide number of employment opportunities. You will look at Data Science, programming, ICT project management and modelling, web programming and software design. There will be two ICT projects to complete in year 3 together with a choice of advanced units.

You'll need to complete a Bachelor of Business in Hobart or Launceston and major in Information and Communication Technology.

International Logistics Management

This major in the Bachelor of Business provides you with a practical and flexible framework for understanding and analysing business operations, and gives you the knowledge to be involved in a businesses strategic decision-making.

You'll need to complete a Bachelor of Business at our Launceston campus or via distance learning and major in International Logistics Management.

Management

As a major in the Bachelor of Business, this general program sets you up for a career in business. You'll gain a broad, relevant range of abilities in areas like human resources, business communication, accounting and finance, leadership, risk management, marketing, management strategy, corporate regulation and logistics.

You'll need to complete a Bachelor of Business in Hobart or Launceston and then major in Management.

Marketing

Taken as a major in the Bachelor of Business, marketing touches almost every aspect of business strategy and operations. You'll learn product development and planning, pricing strategies, distribution channel management and integrated advertising and marketing communications, to market research and analysis.

Options include careers in marketing, advertising, market research and public relations. You'll need to complete a Bachelor of Business in Hobart or Launceston or via distance learning and major in marketing.

▼ Study and learn essential business fundamentals as well as the opportunity to specialise.

*General Entry Requirements are briefly outlined in the 'How to apply' section. Visit utas.edu.au/admissions for further details.

Tourism

▼ Bachelor of Business Administration (Tourism Management)

Duration	1.5 years full-time or equivalent part-time
Prerequisites	Successful completion of a TasTAFE Advanced Diploma of Tourism Management or equivalent
Entry	November
Location	Hobart, Launceston
Course code	33H
2016 Round 1 Clearly-in ATAR	N/A

This course provides holders of an Advanced Diploma of Tourism Management with the opportunity to gain a professional university degree in tourism management.

The degree gives you a sound knowledge of the fundamental principles and concepts of management, a familiarity with significant literature in the field and the ability to review, consolidate, extend and apply the knowledge and techniques to the tourism sector.

You may also study tourism as a second major as part of our Bachelor of Business degree (see *previous page*).

Career opportunities

Graduates will have the knowledge and expertise to work in diverse sectors of the travel and tourism industry such as:

- Arts, museums and historic sites
- Destination development
- Events and convention management
- Marketing and promotions
- Parks and wildlife service
- Sport and recreational development
- Tour operations
- Tourism journalism and media
- Travel agent

Other Business and Management Degrees

If you are interested in studying business, you may also consider looking at the following degrees:

- Bachelor of Applied Science (Agriculture and Business) – K3T
- Bachelor of Applied Science (Maritime Technology Management) – J3P
- Bachelor of Business (Maritime and Logistics Management) – J3X

University of Tasmania:
TOP 300 in the World

Source: World University Rankings, 2016

Financial matters

When you commence study with the University of Tasmania in a Commonwealth Supported Place (CSP), you must contribute towards the cost of your tuition. The amount you pay depends on which units you study and the payment method you choose.

Student contribution amounts and rules

To be eligible for a CSP you must be an Australian citizen, a New Zealand citizen or hold a permanent visa.

The student contribution is calculated based on the units of study that you enrol in. Each unit is assigned to a 'band' according to the subject area it comes from. The band tells us how much to charge for one equivalent full-time student load (EFTSL), equivalent to 100 credit points, or 100% load.

Most units at the University of Tasmania are 12.5 credit points (0.125 EFTSL), so to calculate the cost of a unit we multiply the contribution amount for that designated band by 0.125. For example, the student contribution amount for a 12.5 credit point Nursing unit of study would be \$6256x0.125 = \$782. A typical three-year degree is made up of 24 units.

HECS-HELP

The majority of university students across Australia choose to defer their student contribution until after they have commenced in the workforce. You can do this by taking out a HECS-HELP loan. HECS-HELP is available to eligible students enrolled in a CSP. This loan can cover all or part of the student contribution amount. You are eligible for HECS-HELP if you are an Australian citizen or the holder of a permanent humanitarian visa. Under this option, the Commonwealth Government pays the loan amount directly to the University of Tasmania. Then, when your salary reaches the minimum repayment threshold, you will make compulsory repayments through the tax system. To learn more, visit studyassist.gov.au

2016 student contribution by band

BAND 1	BAND 2	BAND 3
\$6,256* per full-time year (100% load)	\$8,917* per full-time year (100% load)	\$10,440* per full-time year (100% load)
Nursing*	Mathematics*	Law
Education*	Statistics*	Accounting
Humanities	Science*	Administration
Social Studies	Computing	Economics
Psychological Science [^]	Built Environment	Business/Commerce
Clinical Psychology	Other Health	Dentistry
Foreign Languages	Allied Health	Medicine
Visual & Performing Arts	Engineering	Veterinary Science
	Surveying	
	Agriculture	
	AMC	

*The student contribution amounts for mathematics, statistics and science are subject to passage of the Higher Education Support Amendment (Student Contribution Amounts and Other Measure Bill 2012).
1. Education and nursing students who began their course as a Commonwealth supported student before 1 January 2010 may be charged less than the 2016 maximum amount listed above for units in education and nursing.
2. If you are a mathematics, science, education, nursing or midwifery graduate you may be eligible for a HECS-HELP Benefit.

Other costs

Students are required to pay a student services and amenities fee (SSAF). In 2016, the fee is around \$290 for a full-time undergraduate student. Part-time students are charged on a pro-rata of study load undertaken. Students who are unable to pay the fee up-front can defer all or part of the fee through an element of the Higher Education Loan Program, known as SA-HELP. The fee contributes to funding student services such as legal and health services, counselling, and sport and recreation activities.

You will also need to cover costs such as textbooks, materials, art supplies or software for your course. These costs can vary from course to course.

Accommodation and general living expenses will also vary depending on your chosen living arrangements. To learn more about accommodation options, visit utas.edu.au/accommodation

How to apply

Applications should be made directly to the University of Tasmania, depending on your course and when you want to commence.

Year 12 applicants

For Year 12 students, applications for Semester 1 should be submitted electronically via the University's online application process.

The 'timely' application period opens in August and closes in the last week of September. Late applications will be accepted by the University, but some programs that have special requirements will not accept late applications.

Changing your preference

You can change your original 'timely' application course preferences during the Change of Preference period in December. This allows you to modify your course selection depending on your results from your final examinations.

Learn more by visiting utas.edu.au/apply

Non-school leaver (mature aged) applicants

If you are not a Year 12 student, you apply directly to the University via the online application process. As a non-year 12 student your application will be considered on a broad range of factors, including previous studies, work experience and any extra requirements specified for the course.

To meet the General Entry Requirements (GER) into an undergraduate degree, at least one of the following must be completed:

- Year 12
- Certificate IV, diploma or advanced diploma and/or
- Successful completion of a University enabling program
- Personal competency statement demonstrating how work experience or background meets the University's General Entry Requirements

Particular degrees may also require you to sit a Special Tertiary Admissions Test.

Visit utas.edu.au/courses or utas.edu.au/apply for further details.
