

Bachelor of Business (B3A)

Your Course Coordinator has recommended the following study plan if you are studying full-time and have not received any advanced standing (credit) in recognition of your prior learning.

If you have received advanced standing you will usually have been given a recommended (or required) study plan and you should enrol according to that plan.

Please refer to the recommended enrolment information that applies to you below and, if you have any further questions, please see the information at the end of this document for how to find out more.

Please note that this document was correct at the time of printing but that, as unit availabilities are subject to change, it may be necessary to adjust your study plan over time.
